## *Photographing with Vintage and Toy Cameras*

---

Instructor Name: Richard Rinker

Instructor CC Email: [rrinker@coloradocollege.edu](mailto:rrinker@coloradocollege.edu)

We will be using plastic “toy” cameras that are made to hold either 35mm or, preferably, 120 (medium format) film. The most popular plastic camera and the one I recommend is the Holga 120N, which is available from Freestyle Photo & Imaging Supplies. An alternative to the Holga camera could be a vintage camera such as an old box camera or Twin Lens camera.

In addition, you will want to purchase:

- 4 rolls of traditional B&W film (Ilford HP5 120 or Kodak Tri-X 120 is the best option to use with the Holga 120N)
- 25-sheet pack of 8x10 Ilford Multigrade Deluxe RC paper in either Glossy or Pearl surface
- Old towel
- 3-ring notebook/binder for negatives

Recommended places to purchase your supplies are:

- Freestyle Photo – [www.freestylephoto.biz](http://www.freestylephoto.biz)
- Cameraworks – 5030 N Academy Blvd. (719) 594-6966
- B&H Photo and Video – [www.bhphotovideo.com](http://www.bhphotovideo.com)

### **Supplies**

Holga 120N Camera, model #144120 at Freestyle Photo	\$39.99
Black and White film	\$7.00-12.00 per roll
Ilford MG Deluxe RC paper	\$30.00 for a 25 sheet pack / \$100.00 for 100 sheets
Pen & notebook for notes	Free, if found at home

---

Total estimated cost \$110-150

Please email the instructor with any questions regarding supplies.
